

Coral Mapping Conservation

**We are looking for volunteers
18 years of age and over for a
conservation expedition to the
Philippines**

*Expeditions are open to anyone and
training is provide where needed*

Coral is being destroyed by dynamite
and cyanide fishing.

Our task is to survey, regenerate and
educate the local populas on what is
happening and how to repair the
damage.

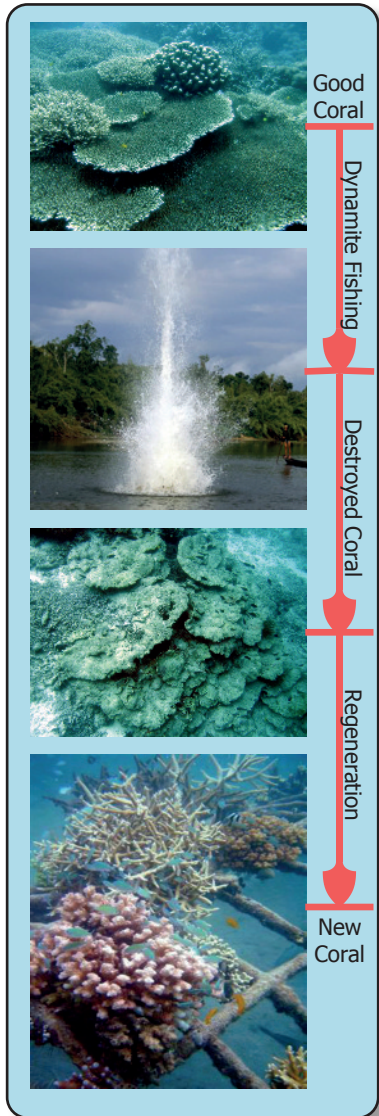

This self funded 2 - 6 week adventure
is an opportunity to make a difference
that counts.

To find out more, come to our seminar at

South Woodham Ferrers Rugby Club
Saltcoats Park, Ferrers Road
South Woodham Ferrers
Chelmsford, Essex, CM3 5WA

15th July 2012 3pm to 6pm

Coral Mapping Conservation Base Camp

Below photos of Base Camp and a small selection of dive points. No experience needed, anyone can contribute, all are welcome. It's not just about diving!

Immerse yourself in the local culture and beautiful surroundings. This conservation project should be as enjoyable as it is beneficial to local people.

It is not a holiday, it can be hard work, but it will be rewarding, varied and interesting work and there will be plenty of time to relax with your new found friends and enjoy all this stunning country and its hospitable people have to offer.

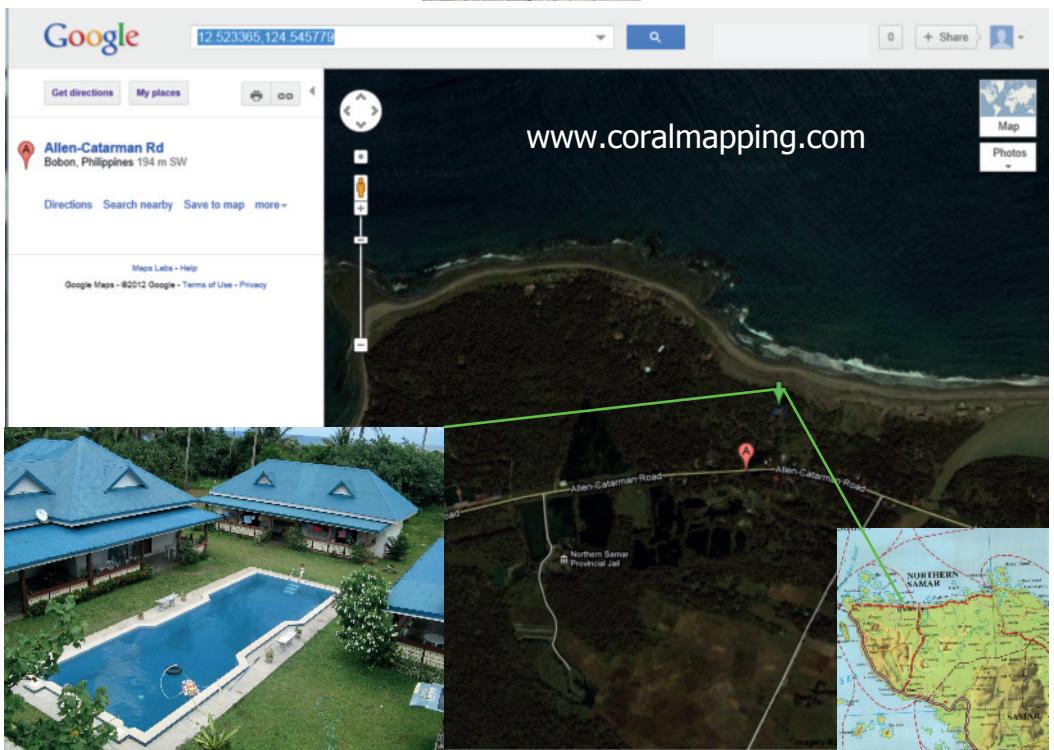

Dive Spot 1

Dive Spot 2

Dive Spot 3

The composite image features several elements: a Google Maps interface at the top left showing the location 'Allen-Catarman Rd, Bobon, Philippines 194 m SW'; a large aerial satellite view of a coastline with the text 'www.coralmapping.com' overlaid; a photograph of a base camp with a swimming pool and blue-roofed buildings; and a regional map of Northern Samar in the bottom right corner with a red pin and green arrows indicating the project location.
